

Vintage Bicycle Handlebars with Integrated Brake Levers

These vintage-style bicycle handlebars feature a classic curved design. Constructed from durable steel, they include integrated brake levers, cable routing, and the handlebar stem with associated hardware.

Product Overview

Classic Design Meets Functionality

These vintage-style bicycle handlebars are designed to bring a classic aesthetic to 28-inch bicycles. Featuring a durable steel construction with a polished silver chrome finish, they offer both reliability and timeless style. The integrated brake levers and cable routing simplify the cockpit setup, making them an ideal choice for restoration projects or retro-style builds.
