

Vintage Cathode Ray Tube Television

This is a portable cathode ray tube television with a classic design. It features integrated speakers and a control panel.

Product Overview

Vintage Cathode Ray Tube Television

This classic cathode ray tube television features a robust silver-colored plastic casing and a traditional rectangular screen design. Integrated side-mounted speakers deliver sound, while the front-facing control panel allows for direct manual input. Its authentic vintage aesthetic makes it an ideal piece for collectors or specialized media projects requiring period-accurate technology.
