

Vintage Style Smoked Glass LED Bulb

This vintage-style LED bulb features a teardrop-shaped smoked glass enclosure and a decorative filament arrangement. The bulb emits a warm, ambient light and is designed for use in standard E26/E27 sockets, offering energy-efficient lighting with a long lifespan.

Product Overview

Vintage Aesthetic Meets Modern Efficiency

This vintage-style LED bulb features a striking teardrop-shaped smoked glass enclosure, designed to add a nostalgic, ambient touch to any lighting fixture. Despite its classic look, it incorporates high-quality filament LED technology that offers exceptional energy efficiency and a long operational lifespan. The bulb is fully dimmable, allowing for customizable brightness levels, and is compatible with standard E26/E27 sockets for versatile installation.
