

Vintage Television with Built-In Display

This is a vintage television featuring a built-in display. The screen showcases a vibrant image, set within a classic design with a wide frame and front panel controls.

Product Overview

Vintage-Inspired Design with Modern Functionality

This vintage-style television combines a classic, robust design aesthetic with an integrated display system. Featuring a wide frame and tactile front panel controls, it offers a distinct look suitable for thematic interiors or retro-focused projects. The system is designed for multi-system compatibility, ensuring versatile performance in various environments.
