

Vortex Pure Water Pump

This vortex pump is designed for efficient water transfer and circulation. It features robust construction and reliable performance, making it suitable for applications requiring clean water pumping.

Product Overview

High-Efficiency Water Circulation

The Vortex Pure Water Pump is engineered for reliable and efficient clean water transfer across residential, commercial, and industrial applications. Built with robust materials to ensure durability, this unit provides consistent performance and is designed for ease of maintenance. It is a dependable solution for systems requiring stable water supply and fluid movement.

Performance Metrics

Performance Overview

32 L/min

Max Flow Rate (Model YCP-158)

32 m

Max Head (Model YCP-158)

2950 r/min

Rotation Speed

Technical Specifications

Electrical Parameters

Parameter	Value
Voltage	220V
Frequency	50Hz
Power Consumption	1100W
Current	0.2A
Insulation Class	Class B

Suitable Environments

Residential, Commercial, Industrial
