

# VP Series Water Pump

This two-pole induction motor water pump is designed for continuous service. It features Class B insulation, IP44 protection, and a thermal protector.

## Product Overview

### Reliable Water Solutions

The VP Series Water Pump is a versatile and economical solution engineered for handling clean water. Its compact and durable design makes it an ideal choice for domestic water distribution and garden irrigation systems. Designed for longevity and ease of use, this pump provides consistent performance when installed in sheltered or enclosed environments.

## Technical Specifications

### Fluid Suitability

- Clean water
- Non-abrasive liquids
- Chemically non-aggressive liquids

### Recommended Use

Domestic, Garden Irrigation, Pressure Sets

### Installation

Must be installed in an enclosed environment or sheltered from inclement weather.

## Performance Features

### Core Benefits

Economical • Easy to Use • Compact Design • Durable Construction
