

W Type Pliers Set

This set includes various W type pliers. The set contains needle nose, diagonal cutting, and diagonal end cutting pliers, as well as a WII type end cutting plier.

Product Overview

Professional Precision Plier Set

This W-Type Pliers set is engineered for high-precision tasks, offering a specialized selection of needle nose, diagonal, and end-cutting tools. Each plier features an integrated limited system, ensuring consistent performance and control during delicate assembly or cutting operations. The ergonomic design and varying sizes provide versatility for various fine mechanical and electrical applications.
