

Walk-Behind Concrete Saw

This walk-behind concrete saw is designed for cutting concrete slabs, asphalt, and other hard surfaces. It features a gasoline or diesel engine, a circular diamond blade, and a water cooling system to reduce dust and prolong blade life.

Product Overview

Professional Walk-Behind Concrete Saw

This high-performance walk-behind concrete saw, also known as a floor or road saw, is engineered for precision cutting in concrete slabs, asphalt, and other hard surfaces. Equipped with a robust engine and a water cooling system, it effectively manages dust while extending the life of the diamond blade. Designed for durability and ease of use, it features adjustable cutting depth and ergonomic controls, making it an essential tool for construction, road repair, and demolition projects.

Technical Specifications

Type

Walk-Behind • Floor Saw • Road Saw

Model

HQ120F

Key Features

Cooling System

Yes

Adjustable Cutting Depth

Yes

Safety Equipment

Blade Guard, Water Cooling System

Applications

Common Applications

- Concrete Slab Cutting
- Asphalt Cutting
- Road Repair
- Demolition Projects
