

Walk-Behind String Trimmer

This walk-behind trimmer utilizes a high-speed rotating nylon rope for cutting through vegetation. A steel front shield provides enhanced safety during operation.

Product Overview

Professional Walk-Behind String Trimmer

This robust walk-behind string trimmer is engineered for clearing dense weeds, tall grass, and light brush in professional landscaping environments. Featuring a powerful 5HP engine and a wide 560mm cutting swath, it provides the efficiency required for large property maintenance. With adjustable cutting heights and a durable build, this unit offers reliable performance for commercial applications.

Technical Specifications
