

Walking Tractor for Plowing and Cultivating

The walking tractor is a versatile agricultural machine designed for plowing, tilling, and cultivating land. It features a robust diesel engine providing reliable power and its compact design makes it suitable for small to medium-sized farms.

Product Overview

Versatile Agricultural Solution

The CF151 series walking tractor is a versatile agricultural machine designed for plowing, tilling, and cultivating land efficiently. Engineered for small to medium-sized farms, its compact design offers exceptional maneuverability in challenging field conditions. With robust construction and support for various attachments, it provides a reliable and cost-effective solution for diverse farming tasks.

Key Features

Capabilities

- Plowing and tilling optimization
- Adjustable handlebars
- Multiple gear transmission options
- Compatible with various agricultural attachments
- Easy maintenance design
