

Walking Tractor for Plowing and Tilling

This walking tractor is a versatile agricultural machine designed for plowing, tilling, harrowing, and other field operations. Its compact design and maneuverability make it suitable for small to medium-sized farms.

Product Overview

Versatile Agricultural Performance

The SH201 walking tractor is a robust and efficient solution for small to medium-sized farming operations. Engineered for reliability, it excels at plowing, tilling, and harrowing tasks under diverse conditions. The unit prioritizes operator comfort with adjustable controls, while the heavy-duty transmission and tires ensure consistent performance in the field.
