

Wall Mount Ceramic Heater

This wall-mounted ceramic heater is designed for supplemental warmth. It uses a PTC ceramic heating element and offers overheat protection.

Overview

Efficient Climate Control

This wall-mounted ceramic heater functions as a versatile air curtain, providing both supplemental heating and efficient air circulation. Designed for professional environments, it features adjustable airflow direction and multiple speed settings to maintain comfort. Its compact, wall-mounted design makes it an ideal solution for commercial and residential spaces requiring consistent temperature management.
