

Wall Mount Kitchen Range Hood

This stainless steel range hood is designed for kitchen ventilation. It features a multi-baffle filter system, integrated LED lighting, a variable speed fan motor, and a telescopic chimney.

Product Overview

Professional Kitchen Ventilation

This stainless steel wall-mount range hood offers efficient kitchen ventilation with a durable multi-baffle filter system for superior grease and odor removal. Featuring integrated LED task lighting and a variable speed fan motor, it provides customizable control to suit any cooking intensity. The design includes a versatile telescopic chimney to ensure a seamless installation across various ceiling heights.

Technical Specifications

Mounting Type	Wall Mount
Material	Stainless Steel
