

Wall-Mount Locking Mailbox with Viewing Windows

This stainless steel mailbox features a locking front door for secure mail delivery. It includes a nameplate slot and three small square windows on the side for checking mail volume.

Product Overview

Secure and Versatile Cash Management

This wall-mount unit is designed for efficient cash handling and secure storage in professional environments. Constructed from durable cold-rolled steel, it features a reliable locking mechanism and a removable cash tray with dedicated compartments for rolled coins and business checks. The design includes multiple high-impact polystyrene trays and convenient viewing windows, making it an ideal solution for organized cash management.
