

Wall Mount Network Equipment Cabinet

This cabinet features a simple design with welded frames, a top cover, and a bottom plate. It is suitable for storing small network equipment like routers and patch panels in homes, offices, and public spaces.

Product Overview

Professional Network Enclosure

This wall-mounted network equipment cabinet is engineered to provide a secure and organized housing for switches, routers, and patch panels. Its compact design is ideal for space-constrained environments such as small offices or server closets. Constructed from durable steel with a professional black finish, it ensures your sensitive network hardware remains protected while maintaining efficient cable management.
