

Wall Mountable Air Purifier for Food Sanitation

This wall-mountable air purifier uses advanced technology to sanitize food items. It is suitable for consumer electronics and IT product applications.

Product Overview

Sanitation and Air Purification

This advanced wall-mountable air purifier is specifically engineered for food sanitation applications. By utilizing specialized air purification technology, it helps maintain hygiene standards in food preparation environments. The unit features a convenient wall-mount design, a user-friendly control panel, and includes a remote control for easy operation.

Design & Installation

Design Features

- Integrated speaker grill
- Ventilation slots
- Sanitation hose connection

Mounting Type

Wall-mountable

Control Method

Control Panel, Remote Control

Applications

Suitable Applications

Food Sanitation • Consumer Electronics • IT Product Applications
