Product Overview

Versatile Industrial Airflow Solution

This multi-functional fan is engineered for high-performance cooling in diverse settings ranging from residential homes to demanding commercial spaces. Its robust construction ensures long-term durability, while the flexible design allows for operation as a wall-mounted, orbit, or stand fan. With customizable speed settings and adjustable positioning, it provides targeted, efficient airflow tailored to your specific environment.

Technical Specifications

Safety Features

- Protective safety grill
- Durable housing construction
- Stable base for stand configuration

Mounting Options

Wall Mount, Orbit, Stand

Performance

Airflow Customization

- Multiple speed settings
- Adjustable tilt
- Adjustable height

Applications

Recommended Use

Residential • Office • Commercial Spaces
