

Wall-Mounted Air Conditioner with Smart Airflow

This wall-mounted air conditioner provides efficient cooling and climate control. It features smart regulation of airflow for comfortable temperature adjustment and includes human activity detection.

Overview

Smart Climate Control Solution

This wall-mounted air conditioner offers advanced climate control designed for residential and commercial environments. It features intelligent detection of human activity to automatically regulate airflow and temperature, ensuring rapid comfort. With precise temperature management, the unit maintains a constant, comfortable climate while improving indoor air quality through advanced filtration technology.

Performance & Features

Cooling Performance

1 Precise

Temperature Control

1 Smart

Airflow Regulation

Intelligent Functions

Human Activity Detection, Automatic Airflow Regulation, Constant Temperature Maintenance, Rapid Cooling

Design & Installation

Design Specifications

- Wall-mounted configuration
- Modern white finish
- Includes remote control
- Requires professional installation

Operation Modes

Quiet Operation • Adjustable Fan Speeds • Advanced Filtration
