

Wall-Mounted Bath Mixer Tap with Diverter

This bath mixer tap features a modern, rectangular design with a chrome finish. It includes a wall-mounted installation, a lever handle, and a diverter for switching between the bath spout and a hand shower, as well as a flexible hose connection.

Product Overview

Modern Wall-Mounted Bath Mixer

This modern bath mixer tap features a sleek, rectangular design with a high-quality chrome finish, suitable for contemporary bathroom installations. It is designed for wall-mounted setup and includes a single lever handle for intuitive temperature and flow control. The integrated diverter allows users to easily switch water flow between the main bath spout and a connected hand shower.
