

Wall-Mounted Bathroom Exhaust Fan

This wall-mounted exhaust fan is designed for bathroom ventilation. It features a square grille front panel with a diamond pattern for efficient air extraction.

Product Overview

Efficient Bathroom Ventilation

This wall-mounted exhaust fan is specifically engineered for effective moisture and odor removal in bathrooms and other small interior spaces. Featuring a durable white plastic construction, it combines longevity with a clean aesthetic suitable for various decors. The unit includes a square grille front panel with a diamond pattern, optimized for efficient air extraction and consistent performance.
