

Wall Mounted Bathroom Heater with Dual Infrared Lamps

This wall-mounted heater provides rapid warmth in bathrooms using dual infrared lamps. It features a ventilation grille for air circulation and individual controls for customized operation.

Product Overview

Efficient Bathroom Heating Solution

This wall-mounted bathroom heater is designed to provide rapid and efficient warmth for small spaces, utilizing dual infrared lamps for optimal heat distribution. With a total power output of 550W, it is perfectly suited for areas between 10 and 20 square meters. The unit is engineered for easy installation, making it an ideal choice for bathrooms or other compact environments requiring reliable supplemental heating.
