

Wall-Mounted Bathtub Mixer with Diverter

This bathtub mixer features a single lever for temperature and flow control. It includes a diverter knob for switching between spout and shower functions and is designed for wall-mounted installation with standard connections.

Product Overview

Professional Wall-Mounted Bathtub Mixer

This wall-mounted bathtub mixer is engineered for reliability and ease of use in residential or commercial bathrooms. It features a robust 40mm ceramic cartridge for smooth, precise control over both water flow and temperature. The integrated diverter allows for seamless switching between the main spout and a shower attachment, making it a versatile solution for modern bath installations.
