

Wall-Mounted Convection Heater

This wall-mounted convector heater is designed for efficient space heating. It features a compact design, safety features, and a thermostat for temperature control.

Product Overview

Efficient Space Heating Solution

This wall-mounted convection heater is designed to provide reliable and efficient space heating for both residential and commercial environments. Featuring a durable aluminum heating element, it ensures optimal heat distribution while maintaining a compact, clean aesthetic. With built-in safety mechanisms and adjustable temperature controls, it offers a versatile solution for maintaining comfortable indoor climates.

Technical Specifications

Power Output

400 W

Power

Supported Voltage

- 220-240V, 50/60Hz
- 100-130V, 50/60Hz

Heating Element Material

Aluminum

Features & Safety

Thermostat Control

Yes

Safety Features

Thermal cut-off device, Wall-mounted
