

Wall-Mounted Exhaust Fan

This wall-mounted exhaust fan is designed for ventilation purposes in residential or commercial settings. It is constructed from durable plastic.

Product Overview

Professional Ventilation Solution

This wall-mounted electrical exhaust fan is engineered for efficient air circulation in both residential and commercial environments. Featuring a robust square housing design with a protective circular grill, it ensures reliable performance and safety. Constructed from durable, high-quality plastic, this unit is built to withstand continuous operation while maintaining a sleek, unobtrusive appearance.

Physical Characteristics

Housing Shape	Square
Material	Durable Plastic
Key Design Features	Wall-Mounted, Circular Grill, Visible Blades

Application

Suitable Environments

- Residential
- Commercial
