Product Overview

High-Efficiency Heating Solution

This wall-mounted gas boiler is engineered for versatile residential applications, providing both efficient floor heating and a consistent supply of hot water. Designed with a compact footprint, it integrates seamlessly into modern living spaces while offering precise temperature control via a digital interface. The unit prioritizes safety and performance, making it a dependable choice for climate control and water heating needs.

Technical Specifications

Heating Power

24 kW

Power Capacity

Energy Efficiency

Class A

Compatible Gas Types

LPG, NG

Working Pressure

0.07~0.25 Mpa

Electrical Requirements

220 V / 50 Hz

Dimensions and Installation

Safety & Installation Requirements

- Indoor installation required
- Must be installed by professional personnel
- Requires proper ventilation and gas connections
- Do not dismantle or modify without authorization
- Keep away from flammable and explosive materials

Product Dimensions

400 x 740 x 305 mm
