

Wall Mounted Outdoor Patio Heater

This wall-mounted patio heater is designed for outdoor use. It provides efficient, directional warmth and features remote control operation.

Product Overview

Efficiency and Comfort Combined

This wall-mounted patio heater is specifically engineered for professional and residential outdoor environments, providing direct and efficient warmth. Its space-saving wall-mount design allows for flexible installation, ensuring heat is directed exactly where it is needed most. With convenient remote control operation, it offers user-friendly adjustment for any outdoor seating or patio area.
