

Wall-Mounted PTC Fan Heater

This wall-mounted PTC fan heater is designed for efficient space heating. It features a digital display for temperature settings and a PTC (Positive Temperature Coefficient) heating element for rapid, safe heating.

Overview

Versatile PTC Heating Solution

This wall-mounted PTC fan heater offers efficient and safe space heating for home or professional office environments. Utilizing advanced PTC heating technology, it ensures rapid thermal output while maintaining safety through integrated overheat protection. The unit features dual-power settings and convenient remote operation, allowing for flexible climate control.

Technical Specifications

Heating Power

1000 W
Low Setting

2000 W
High Setting

Timer	7.5 hours
Cord Length	1.5 m

Features

Key Features	PTC Heating, Overheat Protection, Remote Control, Oscillating Wind, Indicator Light
--------------	---

Design & Installation

Installation

Wall-Mounted • Desktop

Housing Material	ABS
