

# Wall Mounted Push Button Soap Dispenser

This wall-mounted soap dispenser features a durable white plastic casing. It includes a push-button mechanism for easy soap release and is designed for commercial or residential use.

## Product Overview

### Professional Hygiene Solution

This wall-mounted push-button soap dispenser is designed for high-traffic environments, offering a reliable and hygienic handwashing solution. Its durable white plastic construction ensures longevity while the intuitive push-button mechanism allows for controlled soap release. Ideal for both commercial and residential restrooms, this unit features a convenient dispensing window to monitor soap levels at a glance.
