

# Wall-Mounted Radiant Heater

This wall-mounted heater uses radiant heating elements to provide warmth. It features a pull cord switch and a power indicator light.

## Product Overview

### Efficient Indoor Heating Solution

This wall-mounted radiant heater is designed to provide effective supplemental warmth for indoor environments. Featuring a durable metallic housing and a protective safety grille, it is built for both longevity and user safety. The unit is conveniently controlled via a manual pull cord and includes an integrated power indicator light for immediate status feedback.

## Technical Specifications

Mounting Style	Wall-mounted
Heating Technology	Radiant heating element
Control Type	Pull cord switch

## Design and Safety

### Usage Environment

Indoor Use Only • Supplemental Heating

Casing Material	Metallic
Safety Features	Protective Grille, Power Indicator Light
