

Wall-Mounted Radiant Space Heater

This wall-mounted radiant heater provides supplemental heat for indoor spaces. The unit features a metallic housing with a protective grille, pull cord control, and indicator light.

Product Overview

Efficient Radiant Heating Solution

This wall-mounted radiant space heater is specifically designed for reliable supplemental indoor heating. Featuring a durable metallic housing with a protective grille, it ensures both longevity and operational safety for professional environments. The unit is easily managed through a pull-cord mechanism and includes a clear indicator light to monitor status.
