

Wall-Mounted Reverse Osmosis Water Dispenser

This wall-mounted dispenser utilizes reverse osmosis to purify water. It is designed for water pressure between 0.1-0.4 MPa and dispenses up to 189 liters per day.

Product Overview

Professional Water Filtration

This wall-mounted reverse osmosis water dispenser offers a space-saving and efficient solution for high-quality water filtration. Designed for professional environments, it ensures a consistent supply of clean water with a capacity of 189 liters per day. Its sleek design and intuitive operation make it an ideal choice for both residential and commercial water purification needs.
