

Wall Mounted Split Air Conditioner

This wall-mounted split air conditioner is designed for both residential and commercial environments. It utilizes advanced inverter technology for energy savings and provides quiet operation along with precise temperature control.

Overview

High-Efficiency Cooling & Heating Solution

This wall-mounted split-type air conditioning unit is engineered for both residential and commercial environments. It integrates advanced inverter technology to deliver significant energy savings and precise temperature regulation. Designed for durability and comfort, the unit offers versatile cooling and heating modes alongside a sophisticated multi-stage filtration system.
