

Wall-Mounted Split Air Conditioner

This air conditioner provides fast cooling and heating. The compressor maximizes running frequency for rapid temperature adjustment.

Product Overview

High-Efficiency Residential Climate Control

This modern wall-mounted split air conditioner is engineered to provide optimal climate control for residential environments. Featuring a sleek, minimalist white design with rounded edges, it integrates seamlessly into contemporary interiors. The unit is optimized for energy efficiency and quiet operation, ensuring a comfortable living space while minimizing power consumption.

Design & Interface

Design Highlights

Wall-Mounted, Modern Aesthetic, Integrated LED Display, Compact Profile

Performance Metrics

Operational Modes

- Eco Mode
- Standard Cooling

Key Performance Indicators

26 °C

Temperature Setting
