

Wall Mounted Split Air Conditioner

This wall-mounted split air conditioner is designed for both residential and commercial use. It features advanced inverter technology for energy-saving operation and precise temperature control.

Product Overview

Professional Climate Control

This high-efficiency wall-mounted split-type air conditioning unit is engineered for both residential and commercial environments. It features advanced inverter technology that ensures precise temperature control while significantly reducing energy consumption. With its multi-stage filtration system and quiet operation, it delivers superior indoor air quality and comfort, complemented by a sleek, modern aesthetic.
