

Wall-Mounted Split Air Conditioner with Remote Control

This is a split air conditioning system designed for wall mounting. It includes an indoor unit, an outdoor unit, and a remote control for adjusting temperature and settings.

Overview

Professional Climate Control Solution

This wall-mounted split air conditioning system offers efficient climate regulation for commercial and residential environments. Designed for reliability, the system includes a streamlined indoor unit, a robust outdoor compressor unit, and an intuitive remote control for precise environmental management. It is engineered to deliver consistent cooling and heating performance in a modern, space-saving form factor.

System Components

Included Components

- Indoor wall-mounted unit
- Outdoor compressor unit
- Remote control unit

System Features

Design Features

Wall-mounted, Split system, Sleek aesthetic, Horizontal grille

Functionality

Control Parameters

- Temperature adjustment
- Fan speed control
- Operating mode selection
