

# Wall-Mounted Towel Warmer Radiator

This wall-mounted towel warmer efficiently heats and dries towels. Its multi-tiered design saves space while adding a touch of elegance to modern bathrooms.

## ADDITIONAL IMAGES

## Product Overview

### Premium Wall-Mounted Towel Warmer

This wall-mounted towel warmer radiator is engineered for both efficiency and contemporary aesthetics, making it an ideal addition to modern bathroom environments. Constructed from durable mild steel, it offers versatile installation options compatible with either central hydronic heating or electric systems. The unit features a robust, patented welding structure that ensures superior sealing and long-term reliability in humid conditions.

## Technical Specifications

### Available Finishes

Chrome Plating • Powder Coating

### Chrome Plating Standards

- Cr 6+ available
- Cr 3+ available

### Material

Mild Steel (SPCC / Q195)

### Heating System Compatibility

Central Hydronic Heating, Electric Heating

## Compliance & Quality

### Manufacturing Features

- Welding patent for stronger structure
- Enhanced sealing technology
- On Time In Full Guarantee

### International Standards

EN442, ISO 9000, ISO 14001, SA8000
