

Wall-Mounted Ventilation Fan

This wall-mounted exhaust fan is designed for ventilation purposes. It features a circular fan grill encased in a square housing with a cylindrical duct for air extraction.

Product Overview

Efficient Air Circulation

This wall-mounted exhaust fan is designed to provide reliable ventilation in residential and commercial spaces. Featuring a durable white plastic construction, it is built for longevity and easy maintenance. The unit includes a circular fan grill with concentric rings housed within a square frame, optimized for effective air extraction in bathrooms, kitchens, and other confined areas.

Technical Specifications

Mounting Type	Wall-Mounted
Material	Durable Plastic
Color	White
Design Features	Circular Fan Grill, Concentric Rings, Square Housing, Cylindrical Duct

Applications

Recommended Use Cases

- Bathrooms
- Kitchens
- General Air Circulation
