

Wall-Mounted Ventilation Fan

This is a wall-mounted exhaust fan used for ventilation. It has a square housing with a cylindrical duct for air extraction and a flap to prevent backdraft.

Overview

High-Efficiency Ventilation Solution

This wall-mounted exhaust fan is designed to provide reliable air circulation and extraction for various indoor environments. Constructed from durable, high-quality white plastic, the unit features a sleek, square-shaped housing that integrates seamlessly into wall installations. It is equipped with a specialized backdraft prevention flap, ensuring optimal airflow control and preventing outside air from entering when the unit is powered off.

Physical Characteristics

Material	White Plastic
Mounting Style	Wall-mounted
Design Features	Square Housing, Cylindrical Duct, Integrated Backdraft Flap

Application

Primary Application	Air Extraction and Ventilation
