

Wall-Mounted Water Purifier

This wall-mounted water purifier is designed for household use. It features a multi-stage filtration system to remove impurities and contaminants from tap water.

Product Overview

Wall-Mounted Water Purification System

This professional-grade, wall-mounted water purifier is engineered to deliver high-quality, safe drinking water for household applications. Featuring an advanced multi-stage filtration system with a precision of 0.01 μ m, it effectively removes common tap water impurities. Its compact, space-saving design ensures simple installation while providing a consistent outflow rate for daily needs.
