

Wall/Ceiling Ventilation Fan Unit

This unit is designed for wall or ceiling installation. It provides both air circulation via fans and exhaust functionality through integrated grilles.

Product Overview

Versatile Ventilation Solution

This wall and ceiling ventilation fan unit is engineered for efficient air circulation in residential and commercial environments. Featuring a durable white plastic housing, the unit integrates two high-performance circular fans alongside two specialized rectangular ventilation grilles. Its compact, square-shaped design allows for seamless installation, making it an ideal choice for maintaining optimal air quality in enclosed spaces.
