

Wall/Window Mount Exhaust Fan

This exhaust fan is designed for mounting on walls or windows. It features five blades to efficiently circulate air in kitchens, bathrooms, and other spaces requiring ventilation.

Product Overview

Efficient Ventilation Solution

This versatile wall or window mount exhaust fan is designed to provide reliable air circulation for residential or light commercial spaces. Featuring a durable plastic housing and a five-blade configuration, it ensures effective ventilation for areas like kitchens and bathrooms. Its compact, circular design allows for straightforward installation in various mounting environments.
