

Wall/Window Mount Exhaust Fan

This exhaust fan is designed for wall or window mounting. It removes stale air and odors from enclosed spaces.

Product Overview

Efficient Air Ventilation Solution

This wall or window mount exhaust fan is engineered to effectively remove stale air, moisture, and odors from enclosed spaces. Featuring a robust five-blade propeller design and a protective circular grill, it ensures both performance and operational safety. Its versatile mounting capability makes it an ideal choice for various residential and commercial ventilation applications.

Technical Specifications

Design Features

- Five-blade propeller design
- Integrated side louvers
- Safety circular grill
- Square frame construction

Primary Function

Air Extraction • Odor Removal • Ventilation

Mounting Options

Wall Mount, Window Mount
