

Washer Assembly with Copper Cap

This washer assembly combines a copper cap and a SPCC washer. It has an outer diameter ranging from 20 mm to 30mm and is RoHS 2.0 compliant.

Product Overview

Professional Washer Assembly

This precision-engineered washer assembly features a durable copper cap integrated with a standard flat washer. Designed for reliability, the component utilizes high-quality SPCC and red copper materials to ensure excellent structural integrity. The assembly is fully compliant with RoHS 2.0 standards, making it a sustainable choice for industrial applications requiring high material standards.
