

Washing Machine Control Panel

Electronic control panels designed for washing machines. These panels feature various components and connectors for managing machine operations.

Product Overview

Professional Control Solutions

This versatile control panel assembly is designed for reliable integration into washing and drying machines. Each unit serves as a critical electronic interface, featuring high-quality circuit boards, precise component layouts, and standardized connectors. These modules are engineered to manage complex machine cycles, ensuring consistent performance for laundry appliance maintenance and repair operations.

Technical Specifications

Compatible Model Series

- HITACHI-59
- HITACHI-60
- HITACHI-61
- HITACHI-62
- HITACHI-63
- HITACHI-64
- HITACHI-65
- HITACHI-66
- HITACHI-67
- HITACHI-68
- SAMSUNG-1
- SAMSUNG-2
- SAMSUNG-3
- SAMSUNG-4
- SAMSUNG-5
- SAMSUNG-6

Part Designations

45-99, 48F, 50-91, 45-99C, 50-21D, 48S7-01

Primary Function

Electronic machine cycle management
