Product Overview

High-Performance Drive Belt

This high-performance timing belt is engineered specifically for home washing machine applications, ensuring reliable power transmission and synchronized movement of internal components. Constructed from durable, high-grade materials, the belt is designed to withstand harsh operating conditions including heat, oil, and abrasion. Its precision-molded teeth provide accurate engagement for reduced slippage and quiet, efficient operation.

Technical Specifications

Key Features

- Precision-molded teeth for accurate engagement
- Reduced slippage
- Quiet operation
- High durability

Model Identifier	111MR17
Material Properties	Heat Resistant, Oil Resistant, Abrasion Resistant

Handling and Safety

Handling Instructions

DO NOT CRIMP
