Product Overview

High-Efficiency Drying Motor

This high-efficiency drying motor is precision-engineered for front-loading washing machines, ensuring reliable performance during the drying cycle. Designed with a robust rotor and stator configuration, it delivers smooth and quiet operation suitable for various machine models. The unit includes built-in thermal protection to prevent overheating, prioritizing safety and longevity in demanding household environments.

Technical Specifications

Performance Highlights

1 Multi-pole
Pole Configuration

Design Type	Cylindrical, front-loading compatible
Safety Features	Thermally Protected, Overheat Prevention

Installation & Connectivity

Installation Notes

Standardized interface • Easy installation

Connector Type	Standard multi-pin connector
