

Washing Machine Motor

This motor is designed for automatic washing machines. It features mounting brackets for secure installation and a connector for electrical connections.

Product Overview

High-Performance Washing Machine Motor

This high-performance motor is engineered specifically for automatic washing machines, ensuring reliable operation and consistent results. Its compact, robust design features a specialized ribbed housing that optimizes heat dissipation during heavy-duty cycles. Equipped with secure mounting brackets and a standard electrical connector, this unit is designed for seamless integration into a variety of washing machine models.

Technical Specifications

Design Features	Compact Design, Ribbed Heat Dissipation, Integrated Mounting Brackets
Primary Application	Automatic Washing Machines
Electrical Interface	Standard Connector
