Product Overview

Professional Grade Tee Valve

This high-performance tee valve is specifically designed for seamless integration into washing machine water supply setups. Featuring a robust 15mm x 15mm x 3/4" configuration, it ensures a reliable and leak-free connection for both residential and commercial applications. Its compact construction is engineered for durability, allowing for precise water flow control even in tight installation spaces.

Technical Specifications

Connection Sizes	15mm, 15mm, 3/4 inch
Model Code	E00021
Valve Configuration	Tee Valve

Features

Performance Features

- Compact design for tight spaces
- Precise water flow control
- Robust construction for daily use
- Leak-free reliable connection
