

Water Circulation Pump

This water circulation pump is designed for efficient water circulation in various applications. It features multiple models with varying pipe sizes, power consumption, flow rates, and head heights.

Overview

Efficient Water Circulation

The LPS series circulator pump is engineered for reliable and efficient water circulation across a wide range of residential and light commercial applications. With multiple models available, this series offers flexible options for flow rates, head heights, and pipe sizes to suit diverse plumbing requirements. The robust design ensures consistent performance, while the compact build allows for installation in space-constrained environments.

Compliance

Quality Standards	ISO9001, ISO14001
-------------------	-------------------

Performance Metrics

Operational Range

105 L/min
Max Flow Rate

8.5 m
Max Head Height

260 W
Max Power

Technical Specifications

Model Specifications

Model	Pipe Size	Power (W)	Max Flow (L/min)	Max Head (m)	Weight (kg)
LPS15-4	3/4"	100	30	4	2.6
LPS25-4S	G 1"	85/63/40	46	4	2.6
LPS40-6S	G1 1/2"	100/67/46	65	6	2.8
LPS50-8S	G2"	260/210/140	105	8	5

Dimensional Data

Installation Dimensions

Model	Port-to-Port (mm)	Pipe Connection
LPS50-6S	180	G2"
LPS40-6S	130/180	G1 1/2"
LPS25-6S	130	G1"
