

Water Dispenser Replacement Filter

500x150x150mm

This water dispenser filter is designed for use in household electrical appliances. It provides clean and safe drinking water by removing impurities and contaminants.

Product Overview

High-Efficiency Water Filtration Solution

This water dispenser replacement filter is expertly engineered for household electrical appliances, ensuring the delivery of clean and safe drinking water. Designed to effectively remove impurities and contaminants, it utilizes high-quality materials to maintain water purity. The unit is built for ease of installation and maintenance, offering broad compatibility with various water dispenser models.

Technical Specifications

Dimensions	500 x 150 x 150 mm
Rated Voltage	220V-240V
Frequency	50Hz/60Hz
Power Consumption	10 W

Features

Core Features

- Integrated UV Sterilizer
- High-quality filtration media
- Easy installation design
- Low maintenance requirement

Compliance	UV Sterilization
